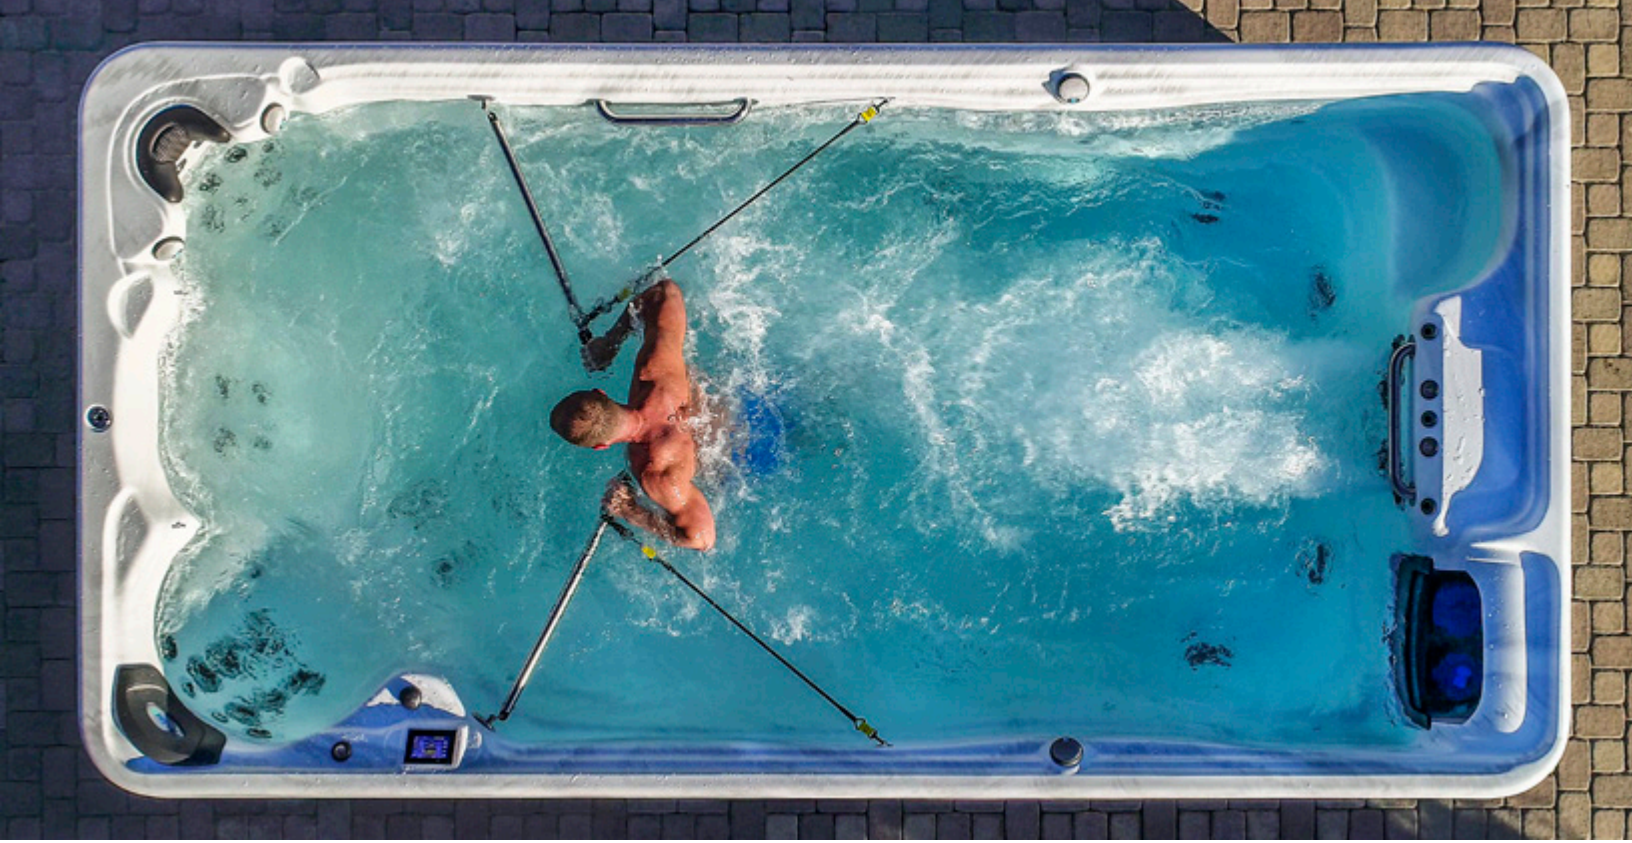
TidalFit®

THE EXERCISE POOL

THE BACKYARD FAMILY & FITNESS INNOVATION



Swim Jet System

The Swim Jet Systems are at the core of the TidalFit Exercise Pool line allowing you to adjust the amount of current you swim against.

Aquatic Training System

Your TidalFit Exercise Pool can include aquatic training equipment:

ROWING BARS

Smooth, low-impact, and non-load bearing, rowing spreads the exercise intensity evenly over the body's three major muscle groups: the torso, legs, and arms. This even distribution of exercise helps tone all muscles, instead of just one group.

STRENGTH TRAINING - RESISTANT CORDS, CLIPS, AND HANDLES

Resistance cords are used in the TidalFit pool for upper body exercises, specifically designed to build strength and lumbar core stability. The cords vary in size to accommodate beginners to advanced conditioning.

STATIONARY RESISTANT SWIM TEATHER

The buoyancy of water provides a virtually weightless environment, allowing you to walk with minimal stress on joints and bones. Walking against the resistance of water also increases the rate at which you burn calories and strengthen muscles.

THE NEW

DTL-6

Dual Temp FITSPA

U.S. Patent No. 10,208,496

The **DTL-6 Dual Temp FitSpa** features a **14-foot exercise pool** with built-in stairs PLUS a luxury **6-foot hot tub** with separate controls. Available in Semi-Inground or Above Ground.

Dimensions

168 in. x 163 in. x 54 in.

427 cm x 414 cm x 137 cm

Water Capacity

2055 gal 7779 L

Dry Weight

3100 lbs 1406 kg

Heater

5.5 kW - 60 Hz (3.0 kW - 50 Hz)

POOL SIDE Dimensions:

168 in. x 91 in. x 54 in. 427 cm x 231 cm x 137 cm

Water Capacity: **1640** gal 6208 L

Dry Weight: **2250** lbs 1021 kg

SPA SIDE Dimensions:

72 in. x 91 in. x 54 in. 183 cm x 231 cm x 137 cm

Water Capacity: **375** gal 1420 L

FOR THE FAMILY & FOR FITNESS

Family-friendly TidalFit Exercise Pools are an excellent alternative to a full-sized backyard pool. In addition to providing many of the same benefits as a traditional swimming pool, TidalFit is also considerably easier to maintain. TidalFit Exercise Pools can be used year-round due to the pool's ability to regulate its temperature. A ideal backyard solution for family amusement.

Swimming and water resistance workouts in TidalFit Exercise Pools are beneficial to people of all ages as a means of staying fit, healthy, and happy. These low-impact, high-resistance exercises are ideal for achieving general fitness while avoiding injury. Get healthy in the convenience and privacy of your own backyard.

Dual Temp FitSpas & Exercise Pools

The ideal backyard solution for
family and fitness.

WiFi App Control

The WORLDWIDE APP MODULE OPTION, allows you to access your hot tub using an App on your smart device (Android™ or iPhone®) via a direct connection anywhere in the local proximity of your tub. Gain access anywhere in your house that you can connect to your local WiFi network, or anywhere in the world you have an internet connection to your smart device via 3G, 4G, 5G or WiFi hot spots.

With the App, you can ensure that your hot tub will be ready whenever you want to take a dip. The App provides full interface control so you can set the temperature, turn pumps on and off and even set filtration cycles - all from your smartphone or tablet.

Get it on Google play

Available on the App Store

*The app's cloud access cost is free for the first 12 months and then $24 per year after. If not renewed after 12 months, the app will continue to operate in local mode only.

COVER LIFTERS

A COVER LIFTER OPTION is a vital piece of equipment that serves to protect not only your spa but also the cover. With a lifter, entering your spa is a cinch.

Manual Cover Lifter

Hydraulic Cover Lifter

WATER PURIFICATION

CLEAN & PURE SPA WATER

Our water purification systems virtually eliminates the need for chemicals to oxidize contaminates and organics on contact. It converts oxygen molecules “in the air” into ozone. When organics such as bacteria, viruses, and bather load are burned up in the process, it then reverts back to pure, fresh oxygen.

Proven ozone technology effectively removes water impurities and microorganisms, reduces chemical usage and requires less maintenance. Your skin will feel soft, clean and free of harsh chemicals.

Clean spa water made easy...nature’s way.

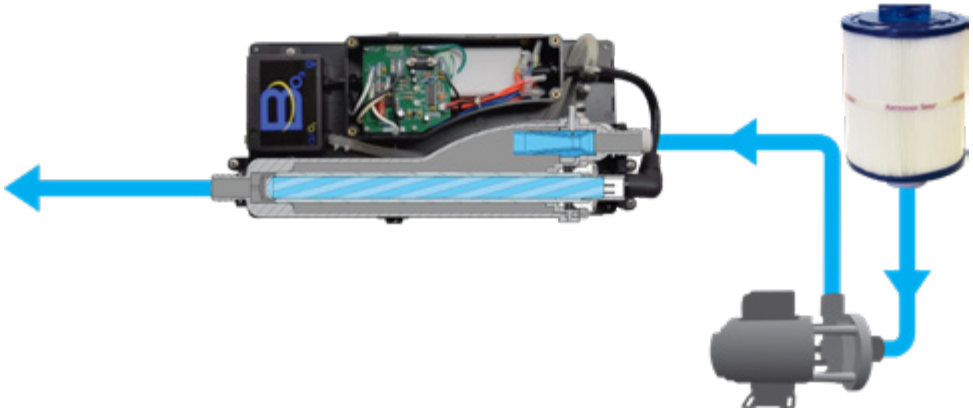
SAVING TIME AND MAINTENANCE

For residential spas that effectively remove water impurities and microorganisms, reduce chemical usage, require less maintenance and provide the convenience of one unit to clean your spa day after day both domestically and internationally.

Proven, reliable and green technology for clean spa water.

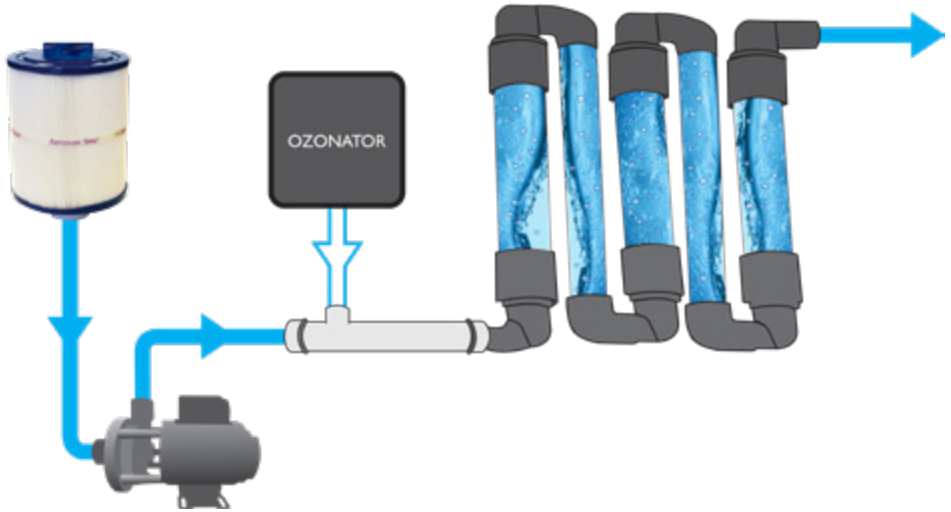
Diamond AOP™

The Diamond AOP™ process combines Microfiltration, high efficiency Circulation Pump, and the AquaNova™ UVC & Ozone Spa Sanitizer, to create a highly advanced oxidation process (AOP) for water purification.



Crystal ProPure™

Water Purification combines the Ozonator, Dynamic Injector, and the ProPure Mixing Chamber. All components work together to create an innovative water purification system.



About TidalFit Exercise Pools

The TidalFit exercise pool is built to the same world class quality standards that you would expect from May Manufacturing, LLC, who is renowned throughout the spa industry. Designed with an ideal combination of innovative engineering and artistry, the TidalFit is as constant in quality as it is in efficiency and design. Some of the most discriminating buyers acquire this exercise pool because it is intuitively user friendly, as well as being aesthetically appealing. Simply put, with its quality workmanship and exceptionally attractive features, the TidalFit is in a class of its own. TidalFit was recently seen on the ABC television show Extreme Makeover Weight Loss Edition.
